APPLE VISION PRO

Watch the video and discuss the questions with your partner.

How do you think the Apple Vision Pro can change everyday activities like shopping, learning, or entertainment?

What features do you hope to see in devices like the Apple Vision Pro?

Do you think wearable technologies like the Vision Pro will become common in the future? Why or why not?

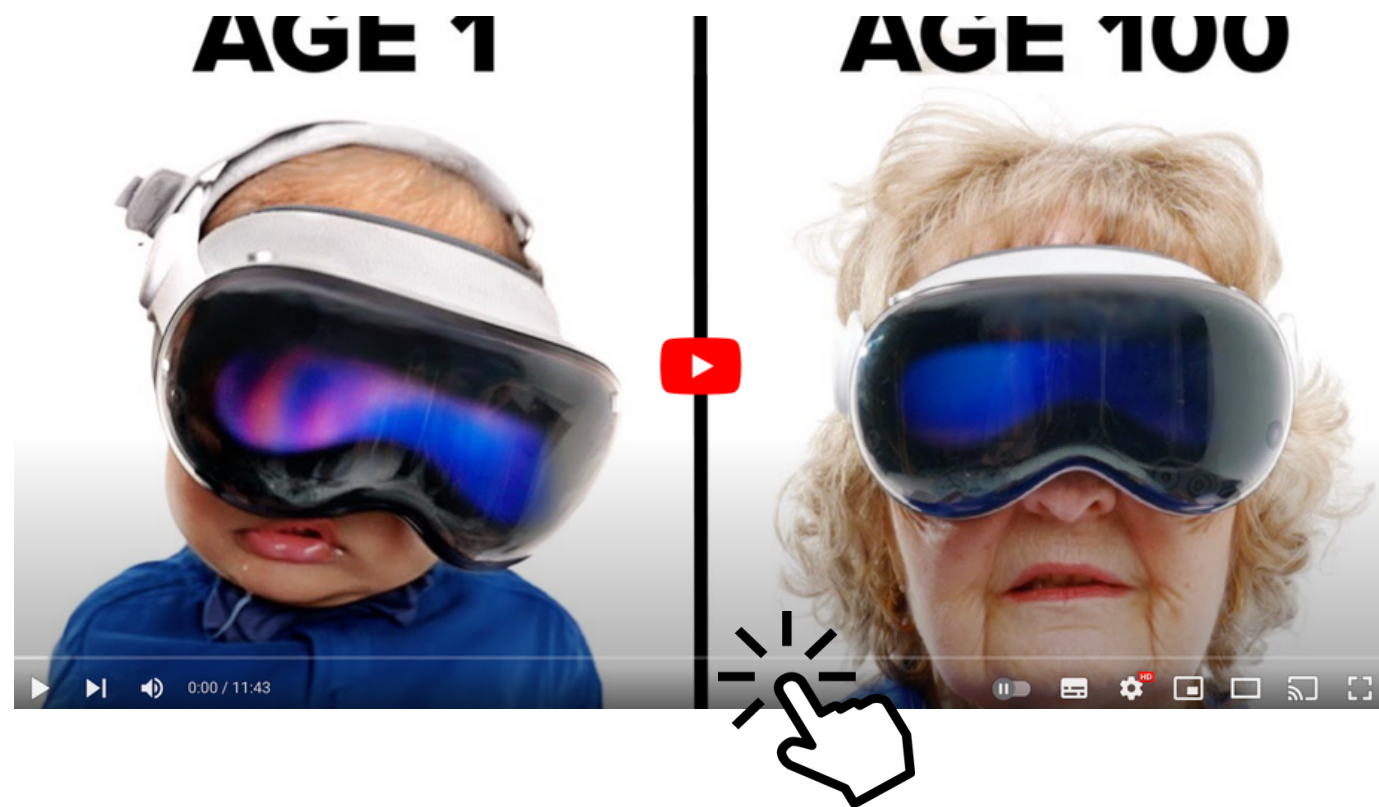

PROS AND CONS

You are going to watch a video about people of different ages trying the Apple Vision Pro. Before watching, think about the pros and cons of the Apple Vision Pro for society.

APPLE VISION PRO

1. Watch the video (00:00 - 2:01) and complete the multiple-choice questions.

1. What feature of the Vision Pro headset allows users to select items by just looking at them?

- A. Voice commands
- B. Gestures
- C. Eye-tracking technology
- D. Clicking a button

2. What characteristic of the Vision Pro headset sets it apart from other headsets?

- A. It creates shadows on the ground
- B. It allows users to take it everywhere
- C. It mixes the user's reality with the virtual reality
- D. It has blue lights on the outside

3. What was the overall verdict of the participants on whether the Vision Pro is good for society?

- A. More participants voted that it is good for society
- B. More participants voted that it is bad for society
- C. The participants were evenly divided in their votes
- D. This part of the video did not provide information about the participants' overall reaction

4. Which feature of the Vision Pro headset was described as "a little frightening" in the video?

- A. The eye-tracking technology
- B. The ability to mix reality with the headset
- C. How good the technology is
- D. The blue lights on the outside

5. Which single word describes the Vision Pro headset based on the video?

- A. Immersive
- B. Realistic
- C. Cool
- D. All of the above

LET'S DISCUSS!

How do you think the children felt when they first tried on the Apple Vision Pro?

What features of the Apple Vision Pro do you think are most engaging for children?

Do you think there are any negative impacts of using such advanced technology in daily life?

How do you think devices like the Apple Vision Pro could change the way we live?

Can you think of any situations where the Apple Vision Pro might be useful?

APPLE VISION PRO

1. Watch the video (8:40-11:32) and tick the actions that people experienced in the video.

- | | |
|--|---|
| ☐ watching dinosaurs | ☐ watching live concert |
| ☐ cooking | ☐ drawing |
| ☐ meditating and relaxing | ☐ experience virtual travel |
| ☐ experience flying | ☐ studying |
| ☐ watching movies | ☐ watching historical events |

2. Work in pairs and discuss the questions.

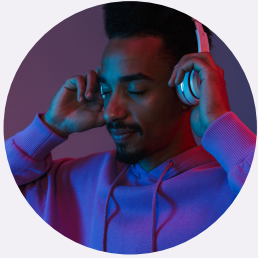

1. How did the participants react to the virtual reality headset?
2. What are some potential benefits of using virtual reality technology?
3. Why do some participants think virtual reality could be good for society?
4. How did the older participants feel about the technology compared to younger participants?
5. What concerns were raised about the impact of AI and technology on jobs?
6. What was the overall conclusion about the virtual reality headset?
7. How did seeing a loved one in virtual reality make the participants feel?

EXPLORING VIEWS ON APPLE VISION PRO

Read the comments of 4 different people about using Apple Vision Pro.

Adrian Brooks

I found the Apple Vision Pro to be quite heavy after wearing it for a while. It started to give me headaches, and I think it's because of the weight distribution.

Although the technology is impressive, it's not very comfortable for long-term use, **which is a big drawback** for me.

[#AppleVisionPro](#)

Sophia Grant

The Apple Vision Pro isolates you from your surroundings, **which can be problematic** for those of us with kids at home. It's difficult to keep track of what's happening around me when I'm using it, **which makes me hesitant to** wear it when I'm alone with my children.

[#AppleVisionPro](#)

Emily Walsh

While the display and features of the Apple Vision Pro **are undoubtedly advanced, the lack of** content that truly takes advantage of its capabilities **is a letdown. There's a significant gap between** the potential of the technology and the actual applications available, **which makes it feel like a poor investment at this stage.**

[#AppleVisionPro](#)

Marcus Lee

I was excited about the Apple Vision Pro, but **the reality didn't live up to the hype.** While the Apple Vision Pro offers innovative features, it's just **too pricey for the average consumer.** Not everyone can spend that much on a headset, especially when there are cheaper alternatives available.

GETTING READY FOR A DEBATE

Look through the phrases that can be used while discussing pros and cons of Apple Vision Pro.

Talking about advantages

It's pretty cool.

Compared to other headsets, this one...

I'm hopeful it's good.

If I could use one word to describe the Vision Pro, it would be...

.... which simplifies complex tasks.

One of the most interesting parts of the Vision Pro is...

.... which motivates me to explore its full potential.

The technology is coming whether or not we're ready for it, so...

For me, I might be able to do so many more things...

I feel like this is like...

One thing of note is...

The reality exceeded my expectations.

Talking about disadvantages

Although the technology is impressive, it's not

....which is a big drawback for me.

While undoubtedly advanced, the lack of
... is a letdown

There's a significant gap between

.... which makes it feel like a poor investment at this stage.

.... which can be problematic

.... which makes me hesitant to

The reality didn't live up to the hype.

..... too pricey for the average consumer.

It's a little frightening how good this technology is, but...

I don't think it's the best for society because...

I feel like a lot of people don't live in the moment, so...

My biggest fear is...

The thing is, this technology is...

LET'S PRACTISE

Match the questions to the correct answers.

1. I was really excited about the new features of the Apple Vision Pro. What do you think about its capabilities? _____

2. The Apple Vision Pro has some advanced features, but have you seen the price tag? _____

3. How do you find the performance of the Apple Vision Pro compared to other VR headsets you've tried? _____

4. The Apple Vision Pro really seems to be a game-changer in immersive technology, doesn't it? _____

5. I'm thinking about using the Vision Pro for my design work. Do you think it's a good idea? _____

a) Absolutely, the reality exceeded my expectations, and I'm eager to see how it evolves.

b) For me, I might be able to do so many more things in my projects with its 3D modelling capabilities.

c) One of the most interesting parts of it is the ability to integrate with other Apple devices, which motivates me to explore its full potential.

d) Compared to other headsets, this one seems to lack some core functionalities, which makes it feel like a poor investment at this stage.

e) Yes, it's too pricey for the average consumer, which is a big drawback for me.

COMPARISON DEBATE

Work in pairs or small groups.

One half supports using the Apple Vision Pro, while the other half opposes its use. Present your arguments to the opposing team, emphasising the strengths or weaknesses of the Apple Vision Pro. Consider aspects such as its technology, cost, potential impact on daily life, and privacy concerns.

After presenting, discuss and debate these points to explore different perspectives and deepen your understanding of the technology's implications.

EXTRA TASK

Write a short blog post about the future of Apple Vision Pro. Reflect on the main features and imagine how this technology might evolve in the next decade. Consider the impact on everyday life, work, and entertainment.

THANK YOU!
